Ken Tussing
Director of Sales
DTT
2502 South Figueroa Avenue
Los Angeles, CA 90007

Ken:

I wanted to let you know that the nine systems that we have purchased from DTT have been installed to fulfill our needs, and are working 24/7 without a hitch. We will be purchasing at least fifteen more systems from DTT in the next year and more after that. It has been a truly positive experience working with you and DTT. Anytime there has been a question or problem, DTT was there to fix it or answer the question, which in my book allows us to be successful. DTT's service, sales, and technical staff have made the purchase of this equipment painless.

In my experience of purchasing surveillance equipment, I have found that many companies are able to sell a box; however, DTT not only sells the box, they add that extra support, and service to back their product at a reasonable price. I thank you for a job well done. I look forward to continuing our relationship for many years. I give my full recommendation of you and DTT with no hesitation.

Thank you.

Sincerely,

Enrico Torres
Regional Supervisor
