April 12, 2006

Dear Doug:

I wanted to take a moment to tell you how very pleased I am with the operation of the security systems in our restaurants.

Your personal attention to service, your willingness to work so closely with our installer and the ease of use and reliability of the system is unsurpassed by others. The system is now in ten of our eleven restaurants.

The security system is not only a deterrent for theft and crime, but has become an invaluable tool for other areas of operation as well. We have used the system as a training tool for crew and managers, to validate 800# customer service issues, and in reviewing employee and customer accident reports.

We appreciate the excellent service DTT has provided and look forward to continued success with you.

Sincerely,

A handwritten signature in black ink, appearing to read "Bob Kenworthy".

Bob Kenworthy, Owner/Operator
