Aileen Saucedo
DTT Surveillance

I am writing this letter to let you know how pleased we are with the surveillance system installed at this location. We have owned a Quiznos franchise for the past 10 years and have always had the occasional till shortages and no real way to stop it. Since installing this system, till shortages are rare and we have seen more production in our labor. I like being able to check in on the store from my house as this is a real asset. One of our customers had a purse stolen. By giving us the time of her visit, we were able to catch the thieves and the police were able to make an arrest. We were told by the police that the video was very detailed. We feel this to be a very valuable tool and the customer support staff has been very helpful. Thanks!

Sincerely,

Richard Newkirk
