To Whom It May Concern:

I've had two DTT systems in my Subways for a couple of years. Nevil Desai has been my contact with DTT thru all the questions, the contracts and all my follow-up questions, including my most recent upgrade to include Smart Audit at one of my stores to test it's usefulness.

Nevil has always been quick to respond, extremely courteous and follows up with me on occasion. His communication I would not be trying the Smart Audit.

Thanks DTT, the system is good and it allowed me with the aid of the POS interface the ability to catch a manager that was stealing. I knew she was for years, but the system allowed me to have the tools to finally get to the bottom of the problem.

Frank Wingate

A handwritten signature in black ink that reads "Frank". The signature is written in a cursive, slightly slanted style.
