To Whom It May Concern:

I am writing to compliment the service that I receive with DTT Surveillance. I work directly with Sandra Martinez and have always had prompt, reliable, informative experiences with her. She recently sold me a complete unit with the DTT Smart Audit. I can easily view the audits and promptly relate the information to my Manager at that location. These audits have been extremely useful in my business. I own five stores in Kalamazoo, Michigan and sometimes I am just too busy to be able to view my own video. The audits do that for me. The audits have uncovered possible hazards, theft, and non-related work activities. Ms. Martinez has always returned my calls or emails promptly. She is extremely knowledgeable and courteous and I enjoy working with her. She is an asset to DTT Surveillance.

Thank you,

Dawn Matico
