**TO WHOM IT MAY CONCERN**

I K D Singh am the franchisee owner of SUBWAY stores locate in Tehachapi and California City respectively. In July 2009 I made contact with Nevil Desai at DTT surveillance for a complete in store solution that would allow me to watch over my stores remotely.

Nevil was most helpful in assisting me decide what needed to be installed that would meet my needs at both locations. He then made sure the installation team knew exactly what had to happen and went beyond his call of duty to ensure I was satisfied with the system.

Ever since install of DTT cameras in both stores, I have been an extremely satisfied customer. The ability to remotely monitor both stores on one screen is immense help in keeping my crew honest thus enhancing customer care and satisfaction.

I recommend DTT remote monitoring solution to one and business out there.
