

Bay C.C. Inc/McDonalds

Owner/Operator, Johanne Luth

Supervisor, Roger Godinez

DTT Surveillance has been a great security company that we have worked with on 10 Restaurant Locations over the past 5+ years.

What keeps us working with the extraordinary Company is not only the top quality service from our Account Executive, Jodi Worthy, but from all the people involved from phone technical support to installation people, to the Sales Manager, Hetal Patel, who personally gets involved to ensure we are taken great care of.

The price of other business' surveillance systems maybe cheaper but you get what you pay for. We aren't willing to take that chance when it comes to protecting our business. We are kept up to date on price reductions or discounted offers from DTT Surveillance so that if we have a specific need our problem they can help us.

Technology has changed and continues to change and DTT Surveillance is there to guide you through their many services they offer from "Smart Audits" to "burning surveillance" on a CD to helping set up a Web Cam Icon on my computer so that you can navigate from Restaurant location to Restaurant location easier to that you can make the most of your time.

In my opinion, DTT Surveillance has the top level service to match the type of equipment they sell. What more could you ask for?

Sincerely,

Roger Godinez, Supervisor
