

ATTN: NEVIL DESAI

Whomsoever it may concern:

DTT SURVEILLANCE has helped our multiple stores to grow and control food theft and see more profit.

DTT also has great support and are always there for us 24/7. The support I have got from Nevil and the support team is the best I have seen in years. I really appreciate their help and support for the stores.

Subway Sales staffs are very friendly. Overall they are a great company to work with.

DTT gives peace of mind and their POS Interface helps me view any transactions in the store and also remotely.

I will highly recommend DTT Surveillance to anyone.
