Dear Paul Hunter,

I am pleased with the DTT systems in my subway store #36770 located at Alexandria, VA. Since installation of the Cameras in my store I was able to view, record and observe and operate the store more efficiently than before. It is a good system better than other systems available in the market. I view the store from my home also via internet. I will definitely recommend it to my other franchisee friends.

Thanks,

Mohammed Zaman
