

12/28/09

Dear Mr. Hunter:

I wanted to thank you again for your assistance with my DTT camera systems. The value of these systems is immeasurable. I have ten stores so I have had many instances to put these systems to use. The police departments are very impressed with them and the detail that they provide. We haven't a single instance in which anyone has argued with the evidence. Also, your technical department has answered every question that we had, including helping us install the software on numerous computers. Keep up the good work.

Sincerely,

W. Howard Hughes
