CODY GOSWICK

December 30, 2009

To whom it may concern:

I would like to offer this letter of recommendation to DTT Surveillance. The entire process starting with ordering your DTT system all the way to the follow up after the install is very professional. They tailor each system for each individual Subway Owners specifications and needs.

We just placed an order for our 8th DTT system. We have had such good luck with these systems. As a multiunit owner I rely on DTT's Smart Audit for an independent review of each stores operations several times a month. In fact, we have caught several employees stealing and without this service, they most likely would have continued.

DTT's support is also very good. We call them with any problems and they can take care of most items very quickly. They are very pleasant and professional. Both I and my General Manager consider them a working partner in the Subway Business.

I would highly recommend them to any Subway Franchisee.

Sincerely,

Cody Goswick
