Bonneville Foods Inc.

Idaho Falls, ID.

Mr. Paul Hunter

I just wanted to send you a message and express my satisfaction with your surveillance system. The ability to watch my stores in real time has been fantastic. I have dreamed of a system that works as well as yours for a long time. I have tried other surveillance systems, but none of them have been as user friendly and trouble free as the DTT systems. My labor costs have been reduced, food costs have improved and theft has been virtually eliminated. I recently was able to catch one of my employee's stealing a large sum of money and prosecute him because of this system. The amount of money that I have recovered has more than paid for my system. What a valuable tool to help me succeed in my business. Thanks to all the DTT team.

Sincerely

Mike Manwill, Bonneville Foods Inc.
