

December 30, 2009

Dear Paul Hunter:

Just wanted to let you know that I have been overall impressed with the service I have received at DTT. The technology is absolutely incredible that literally allows me to manage my business from a distance. The customer service and tech support is in general very kind when I call. I love the fact that I can get 24/7 support. We had the Smart Audit but was unable to sustain it only because of financial reasons on behalf of my company. Thanks for everything!

Sincerely,

Marcus Polk
