

To whom it may concern:

I have been with DTT for over 5 years. We now have 36 locations with DTT Surveillance. We have established a great relationship along with helping me have efficiency and accountability in my business.

It has been invaluable for detouring theft and actually knowing the facts on having to figure out different types of situations that pop up in this type of business. If you have ever been in the food industry...you know what I am talking about.

The clarity, positioning and monitoring of the system is unmatched. DTT staff and techs have been unbelievably helpful in customizing systems to me and my accountability structure. One phone call...all is done.

As we move into the future; we all know how technology advances. DTT keeps me updated and installs the technology to keep me up with any new technology that helps me advance my business and allow me to do what I do best...serve customers and keep more money to my bottom-line.

I appreciate the help and continued support of DTT.
